TODAY’S AGENDA

- All day

“I am looking for…”

“I can offer”
After this workshop...

...you will know many more **practical approaches and resources** and you’ll be keen on trying them out in your own institution/research community.

...there will be a **systematic compilation** of resources that you and your colleagues will be adding to constantly.

...there will be an **Implementation Network** for RDM Competence Centers that facilitates future collaboration and exchange of resources.
What’s a GOFAIR Implementation Network?
IMPLEMENTATION NETWORKS

- Implementation Networks = Members of the GO FAIR Initiative

- Consortia of **individuals**, **institutions**, or **projects** with a common implementation goal towards FAIR

- Conscious choices in terms of existing standards and technology

- Implementation Networks reuse, adjust or - in some cases - create entirely new tools, schemas, resources, workflows
  - Wheels are not being reinvented
  - **Existing gems** become integrated parts of a common environment
The overall GO FAIR approach:

- Open and inclusive environment for anyone committed to help putting the FAIR principles into practice

- Integrating all disciplines and states from all over the world: bottom-up, open to all, cross border, cross discipline

- Goal: Broad acceptance and application of FAIR principles
IMPLEMENTATION NETWORKS

Implementation Networks can join GO FAIR in 3 steps:

(1) Fill in application form on www.go-fair.org

(2) Sign Rules of Engagement and select a consortium coordinator

(3) Create a Manifesto (2-3 pages) outlining objectives, strategy, partners etc.
IMPLEMENTATION NETWORKS

GO CHANGE
Culture

GO TRAIN
Training

GO BUILD

IMPLEMENTATION NETWORKS

- Governance
  - IN coordinators form the “Stakeholder Forum”
  - Elected representatives constitute the “Executive Board”:

GO CHANGE

Ronald Cornet
Rare Diseases IN

Suzanne Dumouchel
CO-OPERAS IN

Susana Sansone
FAIR StRePo IN

Odile Hologne
Food Systems IN

Peter Kraker
Discovery IN

GO TRAIN

GO BUILD
IMPLEMENTATION NETWORKS

GO FAIR GOVERNANCE: Responsibilities and Tasks

GO FAIR Steering Committee
- Support decisions

International Support and Coordination Office
- Proposes recommendations, strategy, roadmap
- Propose working programme

Executive Board
- Decides on strategy, FAIR roadmap, defines working programme
- Implements decisions

Stakeholder Forum
- Implementation of FAIR standards

National Support Offices
- National Support Offices

December 2017:

The science ministries of Germany, the Netherlands and France announce that they will support the GO FAIR initiative by setting up an international office.

To do what?

Press release

For release: 1st December 2017, 18:00 / 6 pm ***

1 December 2017
125/2017

Progress towards the European Open Science Cloud

Germany and the Netherlands establish office for the GO FAIR Initiative / France joins

In order to take a step closer towards the realisation of the European Open Science Cloud (EOSC), Germany and the Netherlands are setting up an international office to support the GO FAIR Initiative, the International Support and Coordination Office (ISCO). France is joining them and will also contribute to the office. GO FAIR aims to gradually open up existing research data at scientific and academic institutions in all research fields and across national borders – and is thus a stepping stone towards the realisation of the European Open Science Cloud. The EOSC is a project to provide an open platform for the exchange of research data and will link researchers across Europe. Research data will no longer be confined to hard-drives and USB sticks. The EOSC will enable the shared use and re-use of research findings and data, which will not only benefit science but also industry and society.
INTERNATIONAL SUPPORT AND COORDINATION OFFICE

- Serving as a hub → broadening network and coordination across Implementation Networks

- Assistance with the formulation of manifestos, priorities, roadmaps

- Organisation of workshops and meetings for knowledge exchange and knowledge transfer (limited funds)

- Ensuring synergy within and between Implementation Networks

- Project outcomes and best practices gain visibility as they are promoted by the GFISCO

- Communications and collaboration support, i.e. mailing lists, newsletter, teleconferencing account
